

ITG Netherlands changes name into LGI

As of October 1st, 2020, the Dutch country organization of ITG will continue its business as LGI Netherlands B.V. With three sites in Amsterdam, Schiphol and Rotterdam services now to be offered under the LGI brand, focusing on the sectors electronics and healthcare.

(Rotterdam, 1.10.2020)

Since 1993 ITG is offering services also in the Netherlands, when the company opened an airfreight-branch in Amsterdam. In the meantime the Dutch country organisation of ITG developed into a logistics service provider with focus on end-to-end solutions mainly for the sectors electronics and healthcare. As these sectors are core competencies of LGI group, who acquired ITG in 2013, the services now will be operated under the LGI brand. Therefore the company also changed its name into LGI Netherlands B.V.

This new configuration will give LGI Netherlands an extra boost to further business development to existing and potential new customers, with great access to the LGI network and innovations. With our existing campus locations in Rotterdam and Amsterdam plus offices for air- and oceanfreight forwarding in Schiphol and Rotterdam LGI Netherlands is able to deliver integrated end-to-end logistics solutions including a great variety of VAS activities.

The brand of ITG, being a daughter company of LGI, is focusing on fashion & lifestyle services, e-commerce solutions as well as air & sea freight forwarding.
